

LevelBlue

Cybersecurity. Simplified.

LevelBlue is an experienced, tested, and trusted Managed Security Service Provider. Our mission is to simplify cybersecurity to help customers achieve cyber resiliency and innovate with confidence through our award-winning services, experienced, strategic consulting, threat intelligence and renowned research. With a large, always-on global presence, LevelBlue sets the standard for cybersecurity today and tomorrow.

Customers Benefit from Our Decades of Experience

Consulting Services. We provide comprehensive cybersecurity consulting with a team averaging 15 years of experience. Consulting services include continuous assessment, strategic planning, and advisory services to help organizations benchmark their cybersecurity priorities and design secure computing environments.

Managed Security Services. Our managed services are a strategic extension of your organization's security team. Our team helps you gain efficiency in security operations, identifying costs, and managing complexity. Our services, including managed detection and response (MDR) and managed network security services, ensure your businesses can adapt and scale their security measures as they grow and evolve.

Security Operations Centers (SOCs) and Threat Intelligence. We operate four global SOCs and three Network Operations Centers (NOCs), providing 24/7 monitoring. Our LevelBlue Labs threat intelligence, enriched by machine learning and the LevelBlue Labs Open Threat Exchange (OTX) community, proactively identifies threats and accelerates response times, enhancing overall security.

"The combination of top-tier threat intelligence, the cybersecurity knowledge of expert SOC analysts, and business knowledge will enable LevelBlue to advise customers on more effective security strategies."

- Frost Radar: Managed Detection and Response Market, 2024

LevelBlue Simplifies Cybersecurity by Aligning Your Business Priorities with Cybersecurity Best Practices

Award-Winning Managed Services – provide continuous and comprehensive support to ensure security posture is maintained and strengthened over time.

Advanced Threat Intelligence – relies on data from various sources enriched with AI for real-time threat intelligence, ensuring precise decision-making.

Experienced Strategic Consulting – delivers in-depth assessments and advisory services to tailor cybersecurity strategies to specific business needs.

Global Presence and Support – means we operate with a large, always-on global presence to manage risks effectively so businesses can focus on competitive differentiation and innovation.
