# Cyber Incident Response

## The Problem and How We Help

For businesses today, the reality is that cyber incidents have become a matter of 'when', not 'if'. Whether it's a compromised system, data theft, or personal data breach, institutions targeted by attacks typically face major disruption to their operations, with the potential for significant financial and reputational fallout.

Stroz Friedberg's **Digital Forensics and Incident Response** team is available 24/7 to tackle the immediate effects of an incident by advising organizations on how to restore IT systems and resume operations. The team can support clients either remotely or on-site within a matter of hours.

## Our Capabilities

Stroz Friedberg comprises respected professionals from the digital forensics, regulatory, law enforcement, and legal fields, and is recognized as an industry leader globally for cyber investigations.

Once engaged, our incident responders conduct comprehensive investigations into cyber incidents, assisting with threat actor containment, determining root cause, and identifying any underlying vulnerabilities. Our consultants work with organizations to identify and recover data that may have been lost during an incident as well as remediating data that may have been maliciously placed or left behind on systems.

We present written findings in clear language to help stakeholders understand step-by-step what happened, what the impact was, and make recommendations regarding how to guard against potential future attacks.

Where required, Stroz Friedberg can also work as an ongoing partner post-incident by providing technical analysis and reporting to support advocacy in any associated claims, legal proceedings, or regulatory actions.

## Key Service Features

- **Industry recognized consulting advice** – Stroz Friedberg named a Leader in The Forrester Wave™: Cybersecurity Incident Response Services, Q2 2024 (see below)
- **24/7 incident support coverage**
- **Fast deployment of remote or onsite-teams**
- **Post-event technical analysis and advocacy**

### THE FORRESTER WAVE™

Cybersecurity Incident Response Services  
Q2 2024

Source: Forrester Research, Inc

The Forrester Wave™: Cybersecurity Incident Response Services, Q2 2024 recognized Aon as a Leader. This recognition was based on the capabilities of Stroz Friedberg, which operated under Aon at the time. Stroz Friedberg is now part of LevelBlue, following its acquisition in 2025.

# About Stroz Friedberg

Stroz Friedberg, a LevelBlue company, delivers intelligence-driven digital risk management with expert-led services designed for adaptive resilience.

With over 25 years of leading the resolution of the most complex, high-stakes digital risk issues, we manage the entire digital risk lifecycle – from cyber threats and insider risks to IP theft and regulatory compliance. Our approach combines managed security services with expert analysis and strategy, supported by threat intelligence gathered from thousands of engagements across various industries.

We translate complex technical and legal risks into actionable strategies, helping CISOs and legal teams turn digital risks into board-ready insights. Our comprehensive services include managed cyber defense, digital forensics and incident response, trade secret protection, expert witness support, threat intelligence, security strategy and governance, attack path mapping and testing, and resilience engineering.

Operating as one trusted partner, we align technical precision with business priorities to protect critical assets, adapt to evolving threats, and maximize ROI through proven outcomes. Through LevelBlue's portfolio, these specialized services integrate seamlessly with 24/7 managed security operations and AI-driven threat detection for comprehensive digital risk protection.

**Cybersecurity. Simplified.**
